LORING WARD
TOTAL RETIREMENT
As a business owner or retirement plan trustee, how do you meet your fiduciary obligations to employees? How can you be sure that your employees have the best retirement plan possible? How can you provide them with investment advice? And how can you do all this in a way that keeps you focused on running your business?

Consider these 5 Retirement Plan Essentials. At Loring Ward Total Retirement, we believe that these essentials will help ensure a superior retirement plan experience for you and your employees.

1. Work with an ERISA 3(38) Fiduciary
2. Provide Prudent Portfolios
3. Offer Fee Transparency
4. Optimize Plan Design
5. Educate, Advise, Monitor

These 5 Retirement Plan Essentials are the building blocks for a successful retirement plan: a plan that reduces your fiduciary liability, and will help your employees gain confidence in a more secure retirement.
Work With an ERISA 3(38) Fiduciary

Few retirement plans have an ERISA 3(38) fiduciary as the Investment Manager for the plan. ERISA 3(38) fiduciaries (such as Loring Ward) have a duty of loyalty to the plan and its participants. They must act in your best interests. Don’t be confused by “fiduciary guarantees” or “fiduciary warranties” offered by some companies; some may actually deny fiduciary responsibility. To reduce your legal liability, work with an ERISA 3(38) fiduciary who will accept this appointment in writing. Your retirement plan deserves the loyalty and expertise of an ERISA 3(38) fiduciary.

“Salesperson” No Fiduciary Status

- Stock Brokers, Insurance Agents, Most Banks, Brokerage and Insurance Firms
- No Reduction of Risk

ERISA 3(21) Limited Scope Fiduciary

- Some RIA Firms, a Few Brokerage Firms and Banks
- No Meaningful Reduction of Risk

ERISA 3(38) Fiduciary / Investment Manager

- A Small Number of Specialized RIA Firms; a Few Other Entities
- Legal Reduction of Risk

An ERISA 3(38) investment fiduciary “takes on much of the decision making” and “virtually all of the fiduciary responsibility” in the plan, according to well-known ERISA attorney Fred Reish¹.
Many retirement plans provide employees with an overwhelming number of mutual fund options. This can confuse employees and may lead them to make unsuitable investment decisions. What employees need is a simple solution that will give them a professionally-built, globally diversified portfolio based on their goals, time horizon and comfort with risk.

Loring Ward manages more than $5 billion\(^2\), and has been providing prudent Structured Investing solutions for 20 years, to thousands of clients throughout the United States. Your employees can easily select a fully-diversified portfolio.

**Structured Investing – Global Portfolio Series**

- **Equity 1/99**
  - 1% Cash, 99% Equity – focus on long-term growth of capital. It is designed for those interested in maximizing growth potential and willing to assume a higher level of risk to potentially achieve greater returns. These investors should have a long-term investment horizon and be able to withstand substantial fluctuations in portfolio value. The investment time horizon is typically 20 years or greater.

- **Capital Appreciation 15/85**
  - 15% Cash & Fixed Income, 85% Equity – It is designed for those interested in maximizing growth potential and willing to assume a higher level of risk to potentially achieve greater returns. These investors should have a long-term investment horizon and be able to withstand substantial fluctuations in portfolio value. The investment time horizon is typically 15-20 years or greater.

- **Moderate 34/66**
  - 34% Cash & Fixed Income, 66% Equity – The portfolio objective is to provide long-term capital appreciation by investing in both fixed income and a greater amount allocated to equity asset classes. It is designed for those who are seeking a growth-oriented portfolio and have a moderate tolerance for portfolio fluctuations. The investment time horizon is typically 10-15 years or greater.

- **Balanced 50/50**
  - 50% Cash & Fixed Income, 50% Equity – The objective of this portfolio is to provide a balance between capital preservation and capital appreciation. It is designed for those who are most comfortable with a balanced approach to growth and have an average tolerance for portfolio fluctuations. The investment time horizon is typically 5-10 years or greater.

- **Conservative 60/40**
  - 60% Cash & Fixed Income, 40% Equity – Seeks to provide capital preservation and limited growth of capital by investing in a portfolio of primarily fixed income with some exposure to equity. It is designed for those who are most comfortable with a conservative growth approach and have a lower tolerance for portfolio fluctuations. The investment time horizon is typically 3-5 years or greater.

- **Defensive 73/27**
  - 73% Cash & Fixed Income, 27% Equity – a focus on capital preservation by investing in a portfolio of primarily fixed income. It is designed for those who are most comfortable with a conservative approach and have a lower tolerance for portfolio fluctuations. The investment time horizon is typically three years or greater.
As a retirement plan trustee, you have a legal obligation to know and understand all fees. This is nearly impossible without fee transparency. Do you know all the fees in your plan? Some 401(k) providers make it difficult to understand the true cost of their plan. Often their fees are much higher than you might think. You should know clearly every fee paid, and to whom. The solution is to insist on fee transparency.

“`This witch’s brew of hidden fees, conflicts of interest and complexity in applications is at odds with investors’ best interests.”`

- SEC Chairman Christopher Cox
(Speaking on retirement plans)
Does your plan meet the needs of all employees?

What about owners and top management – would you like to contribute more to retirement?

No single retirement plan is best for every company. Many companies have a poorly-designed plan that doesn’t fit their needs or suit their objectives. Loring Ward Total Retirement’s team can help you design a retirement plan that is just right for your company.

- 401(k) Plans
- Profit Sharing
- Defined Benefit
- 403(b) Plans
- 457 Plans
- Combination Plans
Ask yourself:

Is my current financial advisor . . .

- Providing investment education to my employees?
- Advising me about my fiduciary duties?
- Actively helping me to reduce my potential legal liability?
- Monitoring the plan and reporting to me on a regular basis?

A salesman makes the sale and leaves. An independent financial advisor working with Loring Ward Total Retirement is with you every step of the way to educate and advise trustees and employees, and to monitor the plan. Working closely with Loring Ward Total Retirement, your financial advisor is committed to the long-term success of your plan.

The Way a Retirement Plan Should be:

- Easy to Use
- Full Transparency
- Reduced Certain Legal Liabilities
- Institutional Asset Class Funds
- Ongoing Education

Independent professionals working together for your success
Plan Participants can enroll and manage their investments with easy online access.

Plan Sponsors can easily monitor and manage their plan information online.

- Quick and easy online enrollment
- Integrated payroll providers available
- Online and telephone access for plan participants and plan sponsors
- Access for plan participants to easily change investments
- Customized account reporting including transactions and return information
- Online loan, rollover and distribution requests
- Signature-ready Form-5500 and related schedules
- Advanced plan design capabilities with full integration
- Professional investment portfolios, plus flexibility to add mutual funds or self-directed brokerage accounts.
Loring Ward Total Retirement makes implementing your plan easy.

**Step 1 – Getting Started**

- Sign the plan agreements
- Give documents required for conversion (if applicable), along with your check to your Financial Advisor
- Documents for your new plan will be created and sent to you for signature

**Step 2 – Enrollment**

- Email notification sent to employees with instructions for easy online enrollment
- If desired, you may request financial advisor meetings with participants for education and enrollment instructions
- Employees select their investment portfolios and contribution amounts

**Step 3 – Maintenance**

- Financial advisor provides ongoing support for participants and plan sponsor
- Your plan includes streamlined processing and funding of participant contributions
- Loan approval, distribution and rollover requests are approved electronically
- Annual census updates will be completed by plan sponsor.
- Financial advisor and sponsor will work together to complete an annual Fiduciary Checklist
- Plan sponsors and participants have easy and direct access to their Account Management Service Team via telephone and/or email
Fred Reish, Just out of Reish: Menu Monitors 5/27/2010
